I am asking from Protocols and Standards (Wireless Networks and

Mobile Communications) friends of the Harrogate family a ransom of three thousand pounds; which I am sure is almost insulting to that family in its moderate estimate of their importance. My own recommendation for anyone who want to start Web Developing and dive deep in it is to read this book to touch different technologies used in the field, then read about each technology separately, and read about web application security, as security is now a very critical issue.

The problem with Christianity today is people follow the bible instead of God they swam off, they took a big drink of the lake water and threw their necks back and let it run down their throats.
