If the two of them can overcome their differences, this could be love. Scientists at Karolinska Institutet in Sweden have discovered that a gene linked to dyslexia has a surprising biological function: it controls cilia, the antenna-like projections that cells use to communicate. Do ask them how much commission they will receive from each product they recommend, and ask if they are prepared to rebate some of their commission to you, so that you find out if they are making recommendations which maximise their income. Woods again tees off on the back nine for the final round and is too many shots behind with too many players ahead of him to have a realistic chance.
